The **Panasonic Urban™ Collection** is truly like having your very own massage therapist at home.

Benefits of Panasonic Chair Massage

- Relaxes muscles
- Stimulates acupoints for increased energy flow
- Temporarily increases circulation

The Technology

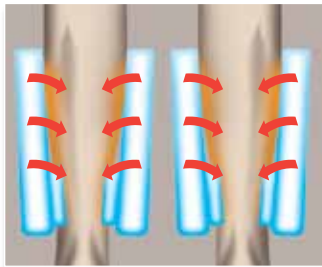

Acupoints

You have approximately 350 acupoints in your body, with nearly 100 in your back and neck. From the soothing palm style of Swedish massage, to deep tissue kneading, to Shiatsu massage, the Panasonic Urban™ Collection has a variety of techniques to target acupoints, resulting in invigorating energy.

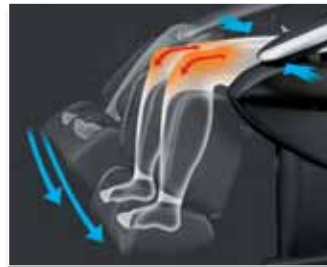

Massage Therapist Techniques

Using 2 or 4 firm rubber massage heads, the Panasonic Urban™ Collection accurately simulates stroking with the palm of hand, pressing with the heel of the hand, kneading and applied pressure with thumbs.

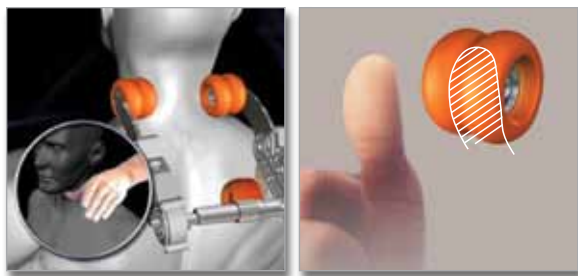

Air Ottoman System

The EP1285 features a 14 airbag circulation system for a more complete, contoured lower body massage including:
Calves – kneading and loosening of the shins and calf muscles.
Feet – upward pressure is applied using four airbags for ultimate relief.

Leg Stretch

Works to alleviate stiffness in your lower back, hips and thighs. The air system in the ottoman squeezes the lower legs while it lowers and raises in 20 degree increments.

Deep Neck/Shoulder Massage

The floating mechanism simulates the movements of a rotating wrist for an amazingly life-like massage. This outstanding feature lets the Panasonic Urban™ Collection perform various massage actions.
